SMART*LINE*
MEDICAL

ABOUT
SMARTLINE

Smartline sells, supplies & manufactures innovative medical equipment & healthcare solutions.

Our products can be found in hospitals and medical centres in every state and territory in Australia and are also distributed to over 25 countries around the world.

Smartline products are regularly represented at healthcare conferences and events in many regions around the world with our distribution partners.

This customer interaction helps engage our clients and the wider industry whilst ensuring our designs meet demand.

SINKS & TABLES

- Electric, height adjustable
- Improve productivity: Reduce risk of injury
- Promotes a comfortable & safe workplace
- Optimise workflow & space

SHELVING & STORAGE

- Non snag edges to avoid tearing sterile wrap on instrument trays.
- Height adjustable shelves which allow a wide range of shelving sizes to suit custom needs. Chrome finish is suitable for sterile stores where humidity is controlled.
- Chrome wire shelving system to maximise storage while ensuring ease of cleaning
- Wide range of shelving sizes available
- Variety of optional extras to maximise storage to best suit your requirements
- Epoxy coated or stainless options are available on request for wet / high humidity areas.

OUR PRODUCTS

Smartline is committed to understanding and providing comprehensive solutions through quality-assured products. All Smartline's product range undergo strict quality assurance checks before leaving our workshop. Our staff regularly travel worldwide to ensure our products are correctly installed and serviced to the highest standard.

All Smartline products are supported by highly trained technical staff. Our distribution partners' capabilities ensure the equipment we manufacture is installed and maintained to a high standard throughout the product's lifecycle. In many regions, additional performance qualification services can be provided specific to Smartline designs by our partners in line with international standards.

Smartline also works with our partners to develop high levels of knowledge to assist customers in designing highly efficient workflows in sterilising and endoscopy departments.

Smartline has developed innovative modular designs for our endoscopy drying cabinets so they are able to be upgraded in stages to remain in-line with changing industry standards, while saving our clients outlays and inconvenience. These outcomes are highly regarded by hospital staff who are under increasing time and budgetary pressures.

The team from Smartline were very accommodating and flexible to our needs. They worked in great collaboration with us to ensure we were able to still maintain our current business. The quality of the work was great with attention to detail. Thank you for our installation job.

(Acting CNC, Perioperative Services, Mackay Hospital & Health Service)

## ELECTRICAL HEIGHT ADJUSTABLE WASHER RACK LIFTER STORAGE SYSTEM
Washer racks are designed to improve safety & space requirements when storing batch washer racks

FEATURES:

- Static & mobile options available. Hand operated control of 2 stage electric height adjustment.
- Stainless steel construction.
- BeliMed Variations: Suit BeliMed baskets & matching trolley; baskets 610mm wide x 750mm deep x up to 670mm high.
- Miele Variations: Suit Miele baskets & matching trolley; baskets 635mm wide x 790mm deep x up to 610mm high.
- Steris Variation: Suit baskets 647mm wide x 671mm deep x up to 600mm high.
- **NOTE** - Trolleys and/or baskets are **not** included.
- Better manage your space and OHS issues.
- Washer racks do not require manual lifting; they roll off the trolley and onto the two-level storage rack.
- Available for most washer brands and in 4, 6 and 8 rack capacity.

HOW IT WORKS:

1. Roll your trolley up to the docking point.
2. Roll off basket into desired tray.
3. Raise or lower rack to access racks from either top or bottom storage level.
ELECTRICAL HEIGHT ADJUSTABLE WORK STATION

Improves productivity: reduces risk of injury

- Promotes a comfortable & safe workplace
- 100kg Safe working load
- Easy to adjust to department & individual working needs
- Australian made
- Optimise workflow & space
- Adaptable modular design with wide selection of optional accessories tailored to department needs

- 6-Plug power pack included, earthed to body for safety
- Stainless steel benchtop surface
- Overhead light improves visibility
- Optional wrap rack with extendable poles to ensure sterile wraps are easily accessible

Scout Rack & Overhead Light

Scout Rack - Extra Shelf

Magnifying light (*can be positioned on left or right*)

Monitor arm with optional keyboard & mouse pad (*can be positioned on left or right*)

Wrap rack (*can be positioned on left or right*)

Bench sizes - 1400mm, 1700mm, 2000mm

Benchtop finishes - coloured compact laminate or stainless steel
Under shelf kit

- 6-Plug power pack included, earthed to body for safety
- Stainless steel benchtop surface
- Overhead light improves visibility
- Optional wrap rack with extendable poles to ensure sterile wraps are easily accessible

- Benchtop surface sizes: 1400mm x 800mm, 1700mm x 800mm, or 2000mm x 800mm
- Benchtop height range from 747mm to 1407mm for use while standing or sitting
- Cable management tray under rear of table to tidy cables

OPTIONAL **ACCESSORIES**

- ❑ **Scout Rack with Overhead Light**
- ❑ **Scout Rack with Extra Shelf**
- ❑ **Tape Dispenser Holder**

  (50mm & 100mm)
- ❑ **Steripeel Hooks**
  50mm 100mm
  Adjustable Set

- ❑ **Stainless Steel Benchtop Finish**
- ❑ **Under Bench Shelf Kit**

SmartPack Bench Size
- ❑ 1400mm
- ❑ 1700mm
- ❑ 2000mm

FREIGHT

- ❑ **Flat Packed - Customer to Assemble**
- ❑ **Flat Packed - Technician to Assemble**
- ❑ **Partially Assembled**

(Please Note: Freight costs will vary depending on level of installation required and location.
Quotes will be supplied for freight based on specific job requirements.)

Notes:

STERIPEEL HOOK STARTER KIT

- Kit with one each of 50mm, 100mm and a set of adjustable steripeel hooks.

STERIPEEL HOOK

- 50mmW.
- 75mmW.
- 100mmW.
- Mounts to SmartPack table to hold steripeel label rolls.
- Includes one 50mm, 75mm or 100mm hook.

STERIPEEL HOOK

- Adjustable, Right & Left Hook Set

- Mounts to SmartPack table to hold steripeel label rolls.
- Set of adjustable left and right hooks.

STICKY TAPE DISPENSER HOLDER

- Suits 1400mm and 1700mm SmartPack.
- Stainless steel construction.
- Holds sticky tape dispensers up to 190mm long & 90mm wide.
- Sticky tape dispenser is not included.
- Easy to assemble, fasteners included.

UNDERSHELF KIT

- 2 shelf

- Set of 2 x chrome wire shelves 530 x 1070mm or 530 x 1520mm.
- Plus 4 x posts & fasteners.
- Shelves are height adjustable.
- Kit suits all 1400mm, 1700mm and 2000mm SmartPack tables.
- Easy to fit - requires hex key supplied with SmartPack table.

WRAP RACK - 3 Bar

- Stainless steel - telescopic type suit most wrap sheet sizes.
- Telescopic design reduces size when not in use.
- Can be fitted to left or right side of SmartPack table.
- Suits 1400, 1700 and 2000mm SmartPack tables.

LED LABORATORY MAGNIFIER LAMP

- Desk Mount

- 3 dioptre magnification.
- Lens size: 120mm.
- Light source: 90 LEDs.
- Mains powered.
- Total extended length 900mm.
- Can be fitted to left or right side of table.

KEYBOARD DRAWER

- SmartPack slide out keyboard drawer - platform 550 x 291mm.
- Includes optional slide out mouse tray (configurable to left or right side of keyboard.)
- Features keyboard stop to secure keyboard upon platform.

SCOUT RACK SHELF & LIGHT ASSEMBLY

- Suits 1400, 1700mm and 2000mm SmartPack tables.
- Stainless steel frame & shroud.
- White LED light 12V.
- Scout rack shelf compact laminate (Blue.)
- Some assembly required.

SCOUT RACK SHELF

- Suits 1400, 1700mm and 2000mm SmartPack tables.
- Scout rack shelf compact laminate (Blue.)
- Fits on scout rack shelf & light assembly.

LCD MONITOR TABLE MOUNT BRACKET

- Bracket uses a C-type clamp for a powerful lock onto a variety of desks or tables.
- The monitor can be rotated 360 degrees horizontally and vertically and extended to approximately 400mm from its base.
- The monitor can be rotated from portrait to landscape.
- Cable clips run along the structure of the bracket to house DVI cable, monitor power cable or any other cable that requires monitor connection.
- VESA mounting (75mm x 75mm and 100mm x 100mm).
- Dimensions: 455(H) x 490(L)mm.

LCD MONITOR, KEYBOARD & MOUSE MOUNT BRACKET

- Bracket uses a C-type clamp for a powerful lock onto a variety of desks or tables.
- The monitor can be rotated 360 degrees horizontally and vertically and extended to approximately 400mm from its base.
- The monitor can be rotated from portrait to landscape.
- The keyboard & mouse/mouse-pad fits to a matching secondary arm below the monitor.
- Cable clips run along the structure of the bracket to house DVI cable, monitor power cable or any other cable that requires monitor connection.
- VESA mounting (75mm x 75mm and 100mm x 100mm).
- Dimensions: 455(H) x 490(L)mm.

PLEASE NOTE: **The above range of accessories is only applicable for the current 10.SP-C range of SmartPack Workstations. They cannot be fitted to other products.**

Limited levels of run-out stock of accessories for previous ranges of SmartPack Workstations are available. Please call the Smartline Sales Team on (07) 5478 9977 or email sales@smartlinemedical.com for further details.

STERILE
STORAGE

Smartline has a range of standards compliant storage options. These can be accessorised to suit specific department needs.

Sterile Shelving options include:

- Static SmartRack chrome wire shelf units.

- Available in a range of sizes & configurations.

- Shelf heights and spacings adjustable.

- Supplied flat packed. Easy to build kit with all components included.

- Pre-assembled units available on request at additional cost.

- Wide range of optional accessories available to customize to your needs.

- Additional shelves available.

- Chrome wire shelving system to maximise storage while ensuring ease of cleaning

- **Shelf Loading Specifications:** Each chrome wire shelf can carry a maximum of 100kg evenly distributed load. However; each set of 4 posts can carry a maximum of 500kg evenly distributed load.

Sterile Storage options include:

- Static Shelving, Trolleys and Adjustable Shelving available in a range of sizes and styles.

- Compactor shelving for maximum density of storage.
LOAN SET

Reduce risk of injury, improve productivity and ensure your department meets stringent health & safety requirements.
